P	Project Title	Degree Batch
1	Explainable AI for EEG Signal Classification (NeuroXplain)	BESE-13
2	AI-Powered Profitability Estimation for Short-Term Rental Properties	BESE-13
3	Artificial Intelligence based End Point Detection and Response system	BESE-13
4	LiDAR-Based Plant Phenotyping for Precision Agriculture	BESE-13
5	A Hybrid AI Framework for Dynamic Behavioral Adaptation	BESE-13
6	AI-Tutor for University Entry Test Preparation	BESE-13
7	Emotion Detection from Micro-Expressions	BESE-13
8	Smart Parental Control & Monitoring System for Child Devices	BESE-13
9	Troubleshooting Copilot	BESE-13
10	Federated Data Lakes and Intelligent Healthcare Management for Pakistan	BESE-13
11	Sedata.AI	BESE-13
12	An Expert-Guided Multimodal AI Ecosystem for Diagnostic Intelligence	BESE-13
13	OBE Assess: AI-Powered Outcome Based Education Assessment System	BESE-13
14	CyberShield: Cybersecurity Awareness & Incident Reporting Portal	BESE-13
15	Callisto AI: Conversational Intelligent CI/CD Automation tool	BESE-13
16	Modeling Glacier Retreat and Water Security in Pakistan Through Remote Sensing Technologies	BESE-13
17	Design and Development of a Decentralized B2B2C Platform for Skilled Labor Connectivity	BESE-13
18	Gaze-Guided Explainable AI for EEG-Based Brain Disorder Classification	BESE-13
19	InnBotics	BESE-13
20	Adaptive Web Interaction: Leveraging Reinforcement Learning for Comprehensive Action Support	BESE-13
21	EmergeOS: Autonomy-as-a-Service	BESE-13

22	FleaderAI: An AI-Driven End-to-End Lead Relationship Automation via Memory-Centric Conversational Agents	BESE-13
23	SmartSketch: AI-Powered Facial Image Generator from Natural Language Descriptions	BESE-13
24	Intelligent Control of SIM-Assisted Wireless Networks Using Deep Reinforcement Learning	BESE-13
25	AI-Driven UAV System for Disaster Response and Real-Time Rescue Operations	BESE-13
26	Smart AgriAssist: AI-Powered Crop Disease Detection and Market Advisory System for Small Farmers in Pakistan	BESE-13
27	HRXpert: Automating Talent Acquisition with Artificial Intelligence	BESE-13
28	Disrupting Deepfake Generation Through Adversarial Attacks	BESE-13
29	Shah Alami market digital platform	BESE-13
30	Non Technical Cofounder Super Agent (Ecommerce)	BESE-13
31	Cloud Optimization: Cost and Security for Enterprise Success	BESE-13
32	EEGWriter: Multimodal Deep Learning Framework for Automated EEG Diagnostic Report Generation	BESE-13
33	Optimization of NOMA-Enabled Backscatter Communication Using Deep Reinforcement Learning in Diverse RIS-Aided Wireless Systems	BESE-13
34	Analysing UAV-Based Multispectral Data for Genotypic-Aware Crop Performance Assessment	BESE-13
35	TaxSimplify: Automated Budgeting & Tax Return Filing System	BESE-13
36	HunarmandAI: Culturally-Aware Intelligent Tutoring for Low-Literacy Urdu Speakers	BESE-13
37	AI Based Security Orchestration, Automation, and Response System	BESE-13
38	From Drones to Decisions: LLM-Based Crop Health Insights from RGB and Multispectral Data	BESE-13
39	AI-Assisted Forensic Analysis System for Decision Support	BESE-13
40	AIcruit : Smart Interview Automation System	BESE-13
